Project Management Professional Exam Preparation Course

Building through Learning...

Project Management Institute

Established in 1969 and headquartered in Philadelphia, Pennsylvania, USA. The Project Management Institute (PMI)® is the world's leading non-profit project management professional association, with over 200,000 members in 125 countries worldwide. Over time, PMI has become, and continues to be, the leading professional association in project management.

Content

The PMP® Exam Preparation Course aims to address the growing demand for PMP® certification; each session of the course covers one of the following knowledge areas as well as many sample questions from the PMP® Exam. The program requires participants to spend extensive time on cases and group discussions.

Program Overview

The Project Management Professional (PMP®) certification is the profession's most globally recognized and respected certification credential. The PMP® designation that follows your name tells current and potential employers that you have a solid foundation of project management knowledge that can be readily applied in the workplace. Worldwide there are thousands of Project Management Professionals (PMPs®) who provide project management services in 120 countries. Many corporations require that for individual advancement within the corporation or for employment, that the individual must have the PMP® credential. The Project Management Professional (PMP®) certification is the project Management credential of choice for numerous industries and companies. By attaining the PMP® credential your name will be included in the largest and most prestigious group of certified professionals in the project management community.

The Regional IT Institute joined forces with the Project Management Institute in 2003 to be one of the earliest training institutes to become a Registered Education Provider in the region to provide this notable education, since then RITI has delivered the PMP® training to more than 2000 participants. This program is considered as one of the most globally recognized certified training programs that RITI has to offer alongside the local training programs and international recognized academic degrees.
